Skills

An enthusiastic and dedicated professional with a passion for digital innovations, I am eager to collaborate with a team of forward-thinking developers. Drawing from a rich background in designing logical and inventive solutions to intricate challenges, I thrive in environments that fuel my zeal for technology, mobile application development, and user-centric experiences. My track record shines through the successful completion of projects for leading IT consultancies, established software houses, renowned web design agencies, and dynamic IT departments. I pride myself on my problem-solving abilities, having consistently demonstrated this across diverse scenarios. I am currently seeking a position in a reputable company that values exceptional performance, and offers the opportunity to work on high-impact projects alongside talented team members.

Experience

AT Tech / Sr. Software Developer

Jan-2022 - PRESENT, Islamabad

- Spearheaded the customization of an existing product built on the Symfony framework, ensuring adaptability and enhanced functionality to meet evolving business needs.
- Championed the migration and revamping of the product to PHP Laravel, leading to improved performance and maintainability.
- Actively led and mentored a team of 4 developers, assigning tasks and overseeing project timelines to guarantee successful and timely delivery.
- Authored comprehensive product documentation and manuals, facilitating smoother onboarding processes and user experience.
- Architected solutions to enhance the product's scalability, preparing it for future growth and increased user loads.

Wolfiz / Software Developer

Oct 2017 - Dec 2021, Islamabad

- Collaborated closely with clients to grasp product concepts, translating these insights into tangible mock-ups using Pencil Tool and Visio.
- Designed robust database architectures for diverse products, utilizing MYSQL to ensure optimal performance and reliability.
- Executed end-to-end web development projects employing a variety of frameworks and tools such as CodeIgniter, core PHP, and Laravel.
- Developed and integrated APIs leveraging PHP CodeIgniter and Laravel, ensuring seamless functionality and data flow.
- Incorporated Firebase to facilitate instant chat features, enhancing real-time user communication capabilities.
- Integrated a range of payment gateways, including PayPal and Stripe, into PHP-based solutions to streamline transaction processes.
- Seamlessly connected third-party APIs, such as Xero, Freelancer, Vimeo, and Zippykind, into web platforms for extended functionalities.
- Led and mentored a dynamic team of 5 junior web developers, overseeing their progression and ensuring project milestones were achieved.
- Delegated project-specific tasks to team members, managing workload distribution and ensuring timely and quality delivery

WebMekanics / Software Developer

Sep 2014 - Sep 2017, Rawalpindi

- Collaborated within a dynamic team, effectively responding to diverse ad-hoc assignments as directed by the IT Manager, ensuring optimal IT operations.
- Played a pivotal role in translating client visions into reality, ensuring that websites were meticulously crafted to align with specific customer requirements.
- Oversaw activity monitoring for various ongoing web portals, maintaining performance benchmarks and identifying areas of enhancement.
- Led the design and development of an online inventory portal tailored for a local automobile shop, leveraging tools like CodeIgniter and Bootstrap for a seamless user experience

- Successfully delivered a range of web development projects, spanning from compact CMS platforms to expansive portals, using a mix of technologies including CodeIgniter, PHP, Bootstrap, and JavaScript
- Engineered backend solutions to facilitate data transmission to Android applications from PHP environments, enhancing mobile responsiveness and data congruence
- Integrated diverse payment gateways into PHP-based platforms, including industry leaders like PayPal and Stripe, optimizing transaction processes and enhancing user trust

Education

University of Engineering & Technology Taxila / BSc

Sep 2008 - Sep 2012, Taxila

BSc in Computer Engineering with CGPA 2.81

Gordon College / FSc

July 2005- July 2007, Rawalpindi

FSc Pre Engineering secure grade A

Skills

PHP Laravel	Expert
PHP Codeigniter -3	Expert
Documentation	Expert
API Implementation	Expert
MYSQL	Expert
PGSQL	Medium
React JS	Medium
Python Flask	Beginner
